# ACTIVITIES

## National Service Scheme (NSS)

Aims of NSS : National Service Scheme aims to instill the feeling of the welfare of the society among students through voluntary participation. The programme infuses among them the understanding of the community and also enables them to understand their position as an individual in the community in which they work. This two-way process of understanding develops a social and civic responsibility that ultimately inspires them to act as responsible citizens and to come out as better human beings. Under the aegis of this programme, students participate in various activities of social welfare and in the process, they not only enhance their leadership qualities, team spirit and group-living capabilities but also develop the skills to participate actively in emergencies, in natural calamities and disasters. These activities further inspire them to learn the dignity in manual labour. The vision of the NSS is to outreach the underprivileged and the marginalized section of the society and to work for their upliftment through students. Even the motto of NSS ' NOT ME BUT YOU ' reflects and signifies the selfless and untiring service towards the community. Breaking all social and economic barriers of discrimination it upholds the democratic approach of equality. NSS helps in inculcating the feeling of appreciation and consideration of other person's point of view among the students. NSS has proven to be a potent tool in bridging the gap between 'Knowledge and Action' and 'College and Community'. The programmes like National Service Scheme have become essential for the idea of a better society. Both stakeholders, the students as well as the society, reap benefits from this practice.
