

Safety and Security

We have a special arrangement of proctorial duties in which female staff members along with male staff members are assigned the duty to provide a safe and secure environment to girls. We have appointed mentors who also take care of the problems of students especially girl students. No outsider is allowed to enter our college as the entry in college is allowed only with ID cards. Two constables are also deputed in front of the gate to avoid nuisance against girls. We have a 'Women Welfare and Sexual Harassment Cell' comprising female teachers, with whom girl students can discuss their problems. The contact numbers of these teachers are given in the prospectus, displayed at various important points of the college and also on college website.

Our institute has a zero tolerance policy against ragging. To make our campus safe and secure for girls, we have installed CCTV cameras at different points. Security guards are also deployed at different places to maintain discipline.

Counseling: We have different committees of staff members like the 'Student Counseling Cell' and 'Career Guidance Cell' to guide girls for their career and help even in their family problems.

Common room: We have a separate common room with attached washrooms for girls. We have a special open area for girls where they can sit, study and spend their free time. Boys are not allowed to enter that specific area.

In the academic year 2021-22 Anti Sexual Harassment cell and women welfare committee conducted different activities to provide a platform for students to share their experience and tensions, regular visit in common room is done by committee members to provide a healthy and pleasant atmosphere to the students.

In the beginning of the academic year an induction ceremony was conducted wherein students were sensitized by committee members about the security and safety measures adopted by the college for them. The cell provided awareness sessions about sexual abuse in common room.

many girls students discussed their problems which they were facing in college campus. Some boys were passing obscene remarks, the girls were feeling scared with such ugly behaviour, some girls were receiving calls from boys which were very awkward for them in family, we the members of cell, listened and discussed the problem and then the boys were warned not to do such activities in future. Now the students are happy. Some girl students were feeling embarrassed while sharing their problems and that was regarding physical touch; whenever the boys get the chance in the crowded zone we the members amicably resolved the problem and secure their life in campus.

we discussed students problems and the boys students were warned even in classed. so now all are happy.
